# Potential Collaboration Opportunities

Denmark is leading in the following aspects.

<b>Digitalization</b>	Denmark is one of the world's most digitalised countries. Most transactions are cashless, and almost all interaction with the Danish authorities takes place online.
<b>Renewable Energy</b>	Today, 50% of electricity in Denmark is supplied by wind and solar power. By 2030, the goal set by the Danish parliament, is that the electricity system in Denmark will be completely independent of fossil fuels. Green energy has been a top priority in Denmark for decades.
